PROFESSIONAL SUMMARY

AWS Certified Solutions Architect Professional with 4+ years of experience in AWS, Azure, DevOps, Infrastructure Automation, Cloud Security, Cloud Migration, FinOps, Kubernetes, and CI/CD implementation. Migrated **70** on-premises VMware and Hyper-V servers to AWS and Azure across **6** clients, reducing infrastructure costs by **15–35%**. Expertise in designing scalable cloud infrastructure, automating remediation workflows using Python and AWS Lambda, implementing Infrastructure as Code using CloudFormation, and managing enterprise multi-cloud environments. Practical experience in AWS Well-Architected Reviews, cloud governance, disaster recovery, monitoring & observability, hybrid cloud administration, and cloud cost optimization achieving up to 40% savings. Strong expertise in EC2, VPC, Route53, IAM, S3, Docker, Kubernetes, GitHub Actions, Linux Administration, and enterprise cloud modernization initiatives.

SKILLS

AWS	**Microsoft Azure**	**DevOps**	**Kubernetes**
Docker	**CloudFormation**	**Python**	**GitHub Actions**
CI/CD	**Cloud Security**	**FinOps**	**Cloud Migration**
IAM	**VPC**	**EC2**	**Route53**
CloudWatch	**Infrastructure Automation**	**Disaster Recovery**	**Linux Administration**
Stripe API	**SQL Server**	**Node.js**	**React.js**
VMware ESXi	**Hyper-V**	**Azure Migrate**	**Lift-and-Shift Migration**

PROFESSIONAL EXPERIENCE

Infosprint Technologies Pvt. Ltd. | Cloud Consultant | Jan 2023 – Present | Hyderabad, India

- Designed and deployed end-to-end AWS Cloud architecture across EC2, VPC, Route53, and S3 environments ensuring scalability, high availability, and secure infrastructure operations.
- Automated cloud remediation workflows using Python, AWS Lambda, and CloudFormation reducing manual operational efforts and improving infrastructure efficiency.
- Conducted AWS Well-Architected Framework Reviews across **40+** client accounts and implemented optimization strategies improving compliance and securing AWS credits.
- Administered AWS services including CloudWatch, Event Bridge, SES, SNS, Cost Explorer, Compute Optimizer, VPN Connections, API Gateway, Organizations, ACM Certificates, CloudTrail, Workspaces, and Directory Services, sustaining **97.3% patch compliance** across managed environments.
- Managed Azure cloud operations including Virtual Machines, VNets, Microsoft Defender, Azure Site Recovery, WAF, Private Endpoints, Azure Backup, Storage Accounts, and Active Directory.
- Developed FinOps optimization strategies by automating EC2 scheduling and tracking usage metrics achieving up to **40% infrastructure cost savings**.
- Strengthened cloud security governance using IAM, GuardDuty, Inspector, and Security Hub aligned with CIS and PCI-DSS benchmarks, lifting average **Security Hub compliance scores from 52% to 94%** across audited accounts.
- Configured Load Balancers, Auto Scaling Groups, SSL certificates, and hybrid cloud networking for enterprise production workloads.
- Established CI/CD pipelines using GitHub Actions for automated deployment workflows across development and production environments.
- Led migration of **27** on-premises VMware servers to AWS through AWS Transform, using its discovery tools for server inventory and assessment.
- Executed Lift-and-Shift migration of **7** on-premises Microsoft Hyper-V servers into Amazon EC2 with AWS Transform, including post-migration validation.
- Delivered migration of **36** VMware servers to Microsoft Azure using Azure Migrate, covering discovery, assessment, replication, and cutover.
- Completed **70** server migrations across **6** client engagements within a 2-hour RTO and 45-minute RPO, cutting infrastructure costs by **15–35%**.
- Migrated production servers from AWS to Azure using Lift-and-Shift migration strategy through Azure Migrate tool.

- Enabled disaster recovery and backup automation using Azure Recovery Services Vault ensuring business continuity with recovery time objectives as low as **1 hour 22 minutes**.
- Led containerization proof-of-concept initiatives using Docker and Kubernetes for hybrid cloud modernization.
- Partnered with clients to implement cloud governance, tagging policies, compliance tracking, and cost visibility dashboards.

SVDIGISOL Pvt. Ltd. | Software Developer Intern | Aug 2022 – Dec 2022

- Developed single-page e-commerce web applications using HTML, CSS, JavaScript, and React.js implementing product listing, cart, and routing functionalities.
- Optimized front-end rendering performance and enhanced user experience through efficient state management and reusable component design.
- Contributed to feature enhancement discussions ensuring timely and quality-driven code delivery within agile development sprints.

KEY PROJECTS

AWS Cloud Monitoring & Well-Architected Review (WAR) Platform | Internal SaaS Product, Infosprint Technologies | React, Node.js/Express, SQL Server, AWS, Stripe

- Architected this enterprise-grade platform enabling centralized oversight and governance for **100+ AWS accounts** from a single console.
- Engineered automated discovery and dashboards for EC2, VPCs, Subnets, CIDR blocks, IAM, Security Groups, GuardDuty, Inspector, Compute Optimizer, CloudWatch, and AWS Billing across multiple accounts.
- Delivered multi-account Well-Architected Framework Reviews and automated Security Assessment Reports covering **Threat Detection, Vulnerability Assessment, and Compliance Monitoring**, with downloadable recommendations.
- Generated FinOps reports covering the **trailing three months** of AWS billing with cost-optimization recommendations.
- Deployed a scheduling engine automating weekly and monthly infrastructure and security report generation and delivery across **100+ AWS accounts** without manual intervention.
- Enabled **single-click generation** of consolidated monthly infrastructure and security reports across multiple AWS accounts, downloadable on demand or auto-delivered to the client's registered or a custom email address.
- Integrated **Stripe** for subscription management and payment processing across four pricing tiers with prorated plan switching.
- Secured application credentials using **AWS Secrets Manager** and GitHub Secrets, eliminating hard-coded secrets from the codebase.
- Modeled the **Amazon RDS** database schema for customer, subscription, infrastructure inventory, metrics, and reporting data.
- Automated **PDF security report generation** with severity-based visual indicators and paginated tables, deliverable via direct download or bulk email to client-specified addresses.

TECHNICAL SKILLS

Cloud Platforms: AWS, Microsoft Azure
AWS Services: EC2, VPC, IAM, S3, Route53, Lambda, CloudWatch, SNS, SES, Event Bridge, API Gateway, CloudTrail, Organizations, ACM, VPN, Workspaces, AWS Secret Manager
Azure Services: Virtual Machines, VNets, WAF, Defender, ASR, Storage Accounts, Azure Backup, Private Endpoints, Azure AD
Cloud Migration: AWS Transform (with Discovery Tools), Azure Migrate, Lift-and-Shift, On-Premises to Cloud
Virtualization: VMware ESXi, Microsoft Hyper-V
DevOps Tools: Docker, Kubernetes, GitHub Actions, CI/CD
Programming: Python, Core Java, HTML, CSS, JavaScript, React.js
Operating Systems: Linux, Windows Server
Product Development: Node.js, Express.js, SQL Server, Stripe API, PDFKit, React 18

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (SAP-C02)
- AWS Certified Solutions Architect – Associate (SAA-C03)
- AWS Certified Cloud Practitioner (CLF-C02)
- AWS Well-Architected Review (WAR)

EDUCATION

Bachelor of Technology — C.V. Raman Global University, Bhubaneswar | 2018 – 2022
Intermediate — Banshi Dhari High School | 2016-2018
Matriculation — S.T Karens High School | 2015-2016
